Addendum

In addition to the information contained in the report of the Secretary-General on regional arrangements for the promotion and protection of human rights in the Asian-Pacific region, the following information has been received from the Economic and Social Commission for Asia and the Pacific (ESCAP). This information was transmitted to the Secretary-General in accordance with paragraph 3 of Commission on Human Rights resolution 1990/71.

I wish to suggest that at least one master copy of all materials available from the Centre for Human Rights be made available to ESCAP for inclusion in its depository library collection. Those materials would be included in ESCAP's archival records and would be available to the ESCAP members and associate members, and to other parties, for further dissemination in the region on demand.

To economize on our resources, it might be most appropriate to initiate this undertaking with the Centre's provision to ESCAP of its latest updated bibliography of the Centre's holdings.

That bibliography could be used by the ESCAP Library as a check-list against which to identify any gaps in ESCAP's present depository collection. The ESCAP Library could then inform the Centre of its specific needs.
